WINTER 2010

JINGLE BELLE

Lise Watier presents the Winter 2010 collection, conceived in a spirit of **luxury** and femininity.

JINGLE BELLE collection features a selection of **warm, glittering colours** on soft, draped backgrounds. Veronese green, pink-tinged purple, and golden tones play beautifully together, magnified by rich textures and metallic finishes. A colour harmony borrowed from the 70s, infused with new vigour and style.

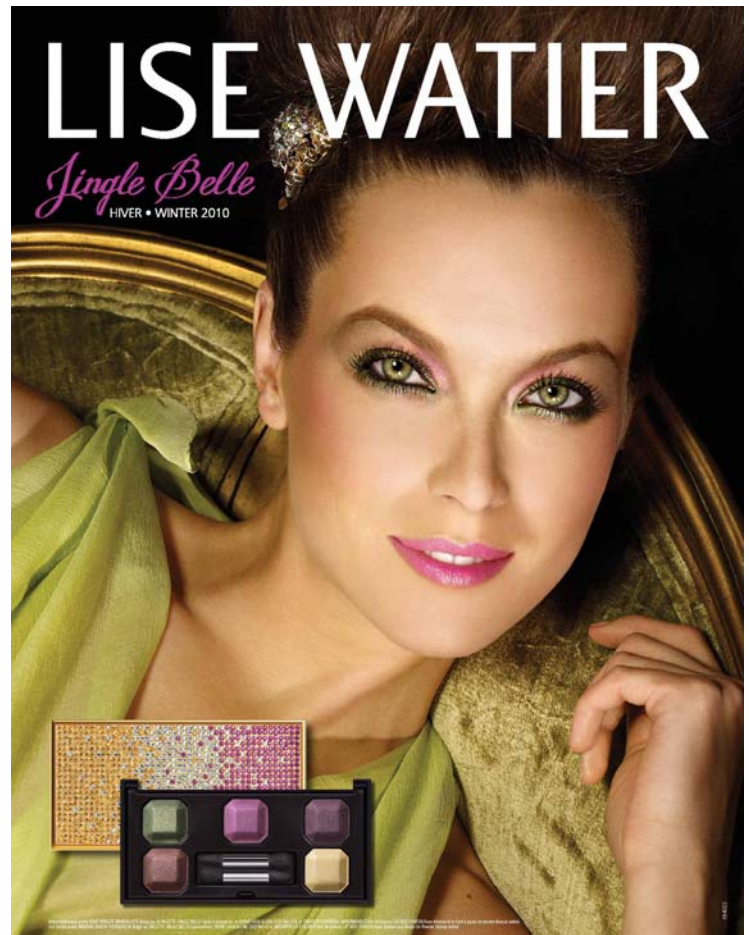

The season's best look is conveyed with modern elegance and glamour. The eyes are emphasized for a playful yet compelling look. The face has a natural glow while the lips are vividly accentuated, with a passionate pink hue.

A collection replete with sparkle and nuance. A palette presented in a pretty jewel-embellished compact.

PALETTE JINGLE BELLE EYESHADOWS

LIMITED EDITION

For her Christmas 2010 collection, Lise Watier has dreamed up a palette of rich and elegant tones. **Veronese green, plum, dark purple, bronzed brown and gold** accent the eyes with shimmering colour. The oven-baked cream eyeshadows present an ultra soft and velvety texture, for a satiny, faintly iridescent finish that becomes magic under the moonlight. Five gems nestled in a compact covered with shimmering stones...

Pro Tip: For a more natural makeup, apply the eyeshadows with a dry sponge applicator over the eyelid. For a very intense and long-lasting look, dampen the sponge applicator with a drop of MÉTAMORFIX LIQUID TRANSFORMER before applying the eyeshadows.
