

LASH BOOSTER DUO

LENGTHENING SERUM. FORTIFYING TREATMENT.

Lise Watier's **latest and most astonishing beauty innovation yet**: LASH BOOSTER DUO, a revolutionary way to lengthen and strengthen lashes with a 2-in-1 formula. Developed from spectacular advances in ocular technology, LASH BOOSTER DUO is the first complete lash treatment that ensures double-efficiency by treating both the root area and the entire lash fringe. It comes in two amazingly innovative formulas:

LENGTHENING SERUM: Thanks to its **high concentration in peptides**, this serum visibly stimulates lash growth while thickening and adding volume. The effectiveness of this formula lies in a savvy blend of peptides, panthenol and glycerine, which directly treats the root area. The peptide action strengthens lashes and stimulates growth while the panthenol and glycerine moisturize, nourish and soften lashes.

FORTIFYING TREATMENT: This second treatment complements the serum action. Thanks to its formula enriched with panthenol, vitamins and botanical extracts, it **protects and strengthens each lash over time**. With super-emollient properties, panthenol coats and protects lashes with a hydrating film, giving them a lustrous, shiny appearance. Vitamins A and E are not only antioxidants, but also hydrate, soften, and confer suppleness. Extracts of cucumber, with its cooling and soothing action, carrot, and peach complete the formula. Lashes are deeply moisturized, fortified and revitalized.

CLINICAL STUDIES YIELD VISIBLE RESULTS:

DermScan Laboratory, an internationally renowned authority in the cosmetic industry, has conducted a study on the clinical efficiency of the Lash Booster Duo. **The results are significant: after 2 weeks of application, 86% of users present an increase of their eyelash length; after 4 weeks, this number goes up to 100%**. The results were measured by analysis of profile images.

Goodbye sparse, thin, fragile lashes! **Day after day, with each application, lashes become lusciously thicker, longer, and stronger**. Eyes are dramatically framed and magnified; new emphasis is on your gaze. An astounding beauty product that defies and redefines all expectations!

DIRECTIONS: The LASH BOOSTER DUO can be applied daily (morning or night) or twice a day (morning and night) for optimal results.

Step 1: Apply the lengthening serum onto clean skin directly at the lash line, like an eyeliner. Allow 1 minute for product to dry before applying makeup.

Step 2: Brush on the fortifying treatment on the lashes, from root to tip, and let the product dry before applying mascara (the white conditioning coat dries on clear).

Paraben-free. Ophthalmologically tested.
